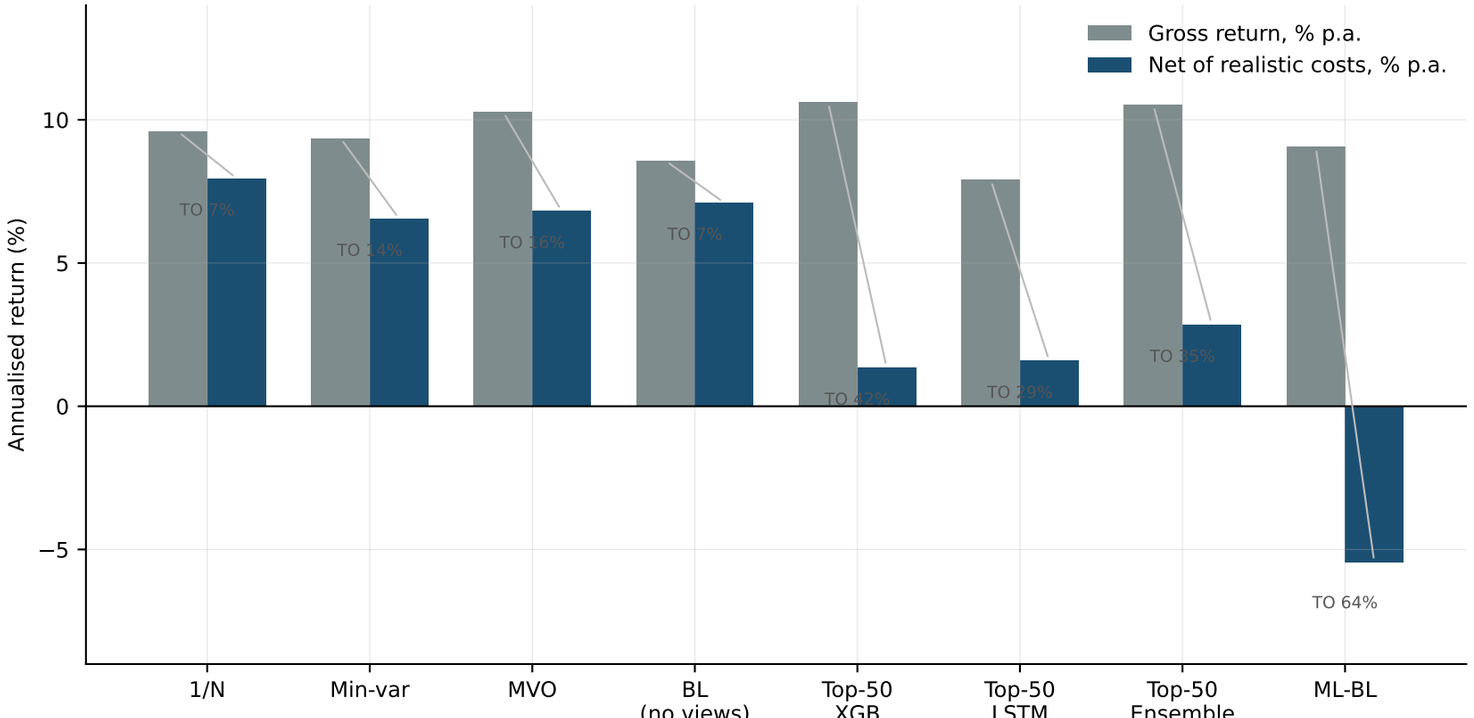
Figure 3.4 FTSE 100: ranking skill before costs, 1/N after costs



NAV = £10 million a priori. Realistic costs = quoted bid–ask + Kyle impact (0.005) + 50% daily-vol shortfall. Traditional books: 168 months; ML books: 167 months (Jan 2012 skipped). Position cap 10%. LSTM/ensemble/ML-BL use the pruned-25 LSTM keep-list (exploratory). Source: tier c/with market realism/ftse 100/scoreboard.
